March 1, 2010

Please allow us to introduce ourselves. We are the Autism Support Network (ASN), a non-profit organization providing support to children and families with children who have autism in Bucks and Montgomery counties. Autism is a medical condition which affects the way people experience the world - including differences in communication, socialization, motor skills and sensory processing. Recent statistics state that approximately 1 out of 100 children in the United States are diagnosed with autism each year.

ASN's mission is simple –to provide support, information and advocacy to children with autism, their families and the general public. Like many volunteer organizations, we are dependent on the support of caring people in our community.

Every year, we hold a very important fundraiser that allows our organization to run. Our annual dinner dance/silent auction has proven to be very successful thanks to the generosity of caring people and organizations in our community. We are asking you to join us this year in raising money for ASN by donating a good or service to be offered in our silent auction. We also welcome you to attend our event on May 8, 2010 at the beautiful Indian Valley Country Club. All donations are tax-deductible, since we are a 501©3, non-profit organization. Enclosed is more information on ASN.

In this difficult economy, every organization is struggling to make sound decisions for their future. We appreciate your consideration in supporting ASN because the need never goes away to help children with autism.

Sincerely,

Tina McDevitt – Co President  
Scott Becker – Co President  
and ASN Families
