March 1, 2010

Dear Friends:

Once again, we invite you to join us for a fabulous night of entertainment, good food and fun while we raise money for the Autism Support Network (ASN), a non-profit organization providing support to children and families who live with autism in Bucks and Montgomery counties. This is our 9th Annual Dinner Dance/Silent Auction – held on May 8, 2010 at the beautiful Indian Valley Country Club.

Autism is a condition which affects the way people experience the world – including differences in communication, socialization, motor skills and sensory processing. Recent statistics show that approximately 1 out of 100 children in the United States are diagnosed with autism each year. Experience shows that with the right support, medical interventions, intensive therapy and education, children with autism can do marvelous things and, many times, lead productive adult lives.

ASN's mission is simple –to provide support, information and advocacy to children with autism, their families and the general public. Like many volunteer organizations, we are dependent on the support of caring people in our community.

Please join us on May 8 for this gala event. All or a portion of your cash donation may be tax-deductible also, please check with your accountant for more details. In this difficult economy, it's more critical than ever that volunteer organizations are able to help those in need.

Sincerely,

Tina McDevitt – Co President
Scott Becker – Co President
and ASN Families
